

Academy of Trades & Technology is seeking a Director of Technology to provide leadership and assume management responsibilities for the direction, coordination, integration, and implementation of technology across the entire school. The Director of Technology will be responsible for planning, purchasing, installing, maintaining, developing technology systems in a condition of excellence enabling full educational use of technology at all times in compliance with local, state, and federal regulations and requirements. This Director will also support curriculum and testing management from school schedules to state and federal testing compliance with computer data systems.

We are seeking someone who truly enjoys working with passionate people in a educational fast pace environment. This is a hands on position with responsibilities that range from strategic and long range planning and implementation of systems-wide technology solutions with responsibilities that range from one-on-one and training and support. Experience working in the educational field is important for understanding how technology systems work form the classroom to the board room and can improve educational outcomes for students' academic achievement. This position is for someone who can create a culture of collaboration and creative support. This position reports to the CEO/Principal
